Program Summary

Facts about [title]—Scope and Sequence

Overview

For Whom Was [title] Developed?—The Teaching Challenge Addressed by [title]—
Program Duration—Scheduling

How the Program Is Different

Field Tested—Organization and Instructional Design—Scripted Presentations—
Language—[more to come]

Teaching the Program

Organization—Teaching—Using the Teacher Presentation Scripts—Independent Work—
Grading Papers—Feedback—Unacceptable Error Rates—Inducing Appropriate Learning
Behaviors—10-Lesson Tests

Sample Lesson

Tracks

Lessons 1–15

Short Division—Rounding Decimals—Decimal Operations—Fraction Equivalences—
Geometry

Lessons 16–118

Fraction Simplification—Multiplication Equations—Rate Equations—Algebra—Algebra
Translation—Coordinate System—Signed Numbers—[more to come]

Lessons 119–120

Test Preparation

Placement

Administering the Placement Test—Placement Criteria—Answer Key

Using Lessons 1–15 as a Stand-Alone Program

Worksheet Blackline Masters, Lessons 1–15

Answer Key, Lessons 1–15

Reproducible Test-Remedy Summary

Test Remedy Blackline Masters, Tests 1–11
